

# Influenza B NP Rabbit Monoclonal Antibody

---

**Product Name:** Influenza B NP Monoclonal Antibody

**Immunogen:** Influenza B Nucleoprotein

**Host:** Rabbit

**Preparation:** Recombinant monoclonal antibody expressed in HEK293F cells and purified by protein A affinity chromatography.

**Applications:** Any application that detects Influenza B virus, pseudo virus, and Influenza B native nucleocapsid protein. Does not detect denatured nucleocapsid protein.

**Reactivity:** Influenza B nucleocapsid protein

**Isotype:** rabbit IgG, kappa Conjugation: Unconjugated Clonality: Monoclonal Concentration: 1mg/ml  
Purification: Protein A affinity chromatography

**Storage buffer:** PBS

**Storage conditions:** For long term storage, the antibody should be stored at -20°C and is stable for 12 months from the date of receipt. Avoid repeated freeze-thaw cycles. For short term storage, keep at 4°C for a week should be fine.

**Application Dilution:** 1:1,000-1:100,000 (platform dependent, customers must test the optimal concentration on their own platform)
