

# Streptococcus pneumoniae Rabbit Monoclonal Antibody

---

**Product Name:** Streptococcus pneumoniae Rabbit Monoclonal Antibody

**Immunogen:** Cell wall extracts

**Host:** Rabbit

**Preparation:** Recombinant monoclonal antibody expressed in HEK293F cells and purified by protein A affinity chromatography.

**Applications:** ELISA, Indirect Immunofluorescence Assay, Lateral Flow

**Reactivity:** Streptococcus pneumoniae

**Isotype:** rabbit IgG, kappa Conjugation: Unconjugated Clonality: Monoclonal Concentration: 1mg/ml  
Purification: Protein A affinity chromatography

**Storage buffer:** PBS

**Storage conditions:** For long term storage, the antibody should be stored at -20°C and is stable for 12 months from the date of receipt. Avoid repeated freeze-thaw cycles. For short term storage, keep at 4°C for a week should be fine.

**Application Dilution:** 1:1,000-1:100,000 (platform dependent, customers must test the optimal concentration on their own platform)

6440 Lusk Blvd, San Diego, CA 92121
